/ ABOUT ME

Passionate about turning data into intelligence

🔧 Machine Learning Engineer & AI Web Developer

B.Tech CSE (AI & ML) student specializing in machine learning, deep learning, NLP, and full-stack web development. I've built projects ranging from RAG-based chatbots to real-time sign language translators, completed internships at Skills4Future and CodeAlpha Technology, and competed in national hackathons like HackFest and GENAI Exchange. Outside of coding, I solve DSA in C++, contribute to open-source, and organize college tech events.

● Ashmit Gautam • ML Engineer

B.Tech CSE (AI & ML), AKTU Lucknow (2023–Present)

India

DSA in C++ • ML & DL

Academic Background

○ Pursuing

Bachelor of Technology — CSE (AI & ML)

Dr. A.P.J. Abdul Kalam Technical University

📍 Lucknow, Uttar Pradesh 📅 2023 – Present

Specialising in Artificial Intelligence and Machine Learning under Computer Science & Engineering. Focused on building practical AI/ML systems alongside core CS fundamentals.

- ▶ Core focus: Machine Learning, Deep Learning, Data Structures & Algorithms (C++)
- ▶ Active in hackathons, open-source, and AI project development
- ▶ Completed multiple internships and industry simulations alongside studies
- ▶ Organized college events: Data Visualization using Dashboard
- ▶ Participating in national-level coding contests and AI events

○ Completed

Intermediate (10+2) — Science Stream

BSNV Inter College

📍 Lucknow, Uttar Pradesh 📅 2022 – 2023

Completed Intermediate education with a science stream, building a strong foundation in Mathematics, Physics, and core sciences.

- ▶ Science stream with Mathematics and Physics
- ▶ Developed early interest in technology and programming
- ▶ Laid the foundation for engineering entrance and B.Tech admission

/ EXPERIENCE

Experience & Journey

Artificial Intelligence & Data Analytics Intern •

Skills4Future (AICTE × Shell India × Edunet Foundation)

Oct 2025 – Nov 2025

- ▶ Completed industry-grade virtual internship in AI & Data Analytics under AICTE's Skills4Future initiative
- ▶ Built and evaluated ML models on real-world datasets with hands-on data preprocessing pipelines
- ▶ Worked on intelligent systems architecture, model deployment, and data-driven decision-making
- ▶ Collaborated with peers and mentors from Shell India and Edunet Foundation

Web Developer Intern •

CodeAlpha Technology (Remote)

Feb 2025 – Mar 2025

- ▶ Developed responsive front-end interfaces using HTML5, CSS3, JavaScript, and React.js
- ▶ Collaborated with the team to deliver real-time web solutions
- ▶ Built and optimised production-grade UI components
